

ועדת ההיגוי הבין-משרדית להיערכות לרעידות אדמה  
National Steering Committee for Earthquake Preparedness

لجنة التنسيق الوزارية للتأهب للهزات الأرضية

June 5, 2014

**Dr. Efraim Laor - Research Humanitarian Coordinator**

Letter of Appointment

The National Steering Committee for Earthquake Preparedness of the government of Israel, has established a sub-committee to elaborate and formulate imperative SOPs for People-with-Disabilities [PwD] in case of earthquakes, tsunami, Natural Phenomena triggering Technological Disasters [NaTech] and inherent Major Fires.

This is to certify that Dr. Efraim Laor is a member with the sub-committee, appointed as a researcher to compile as much as possible evidence-based facts and comprehension from disaster areas, namely, a Humanitarian Coordinator [HC]. The appropriate information should be based on **empirical evidence** and real-time observation and documentation of events {not analytical models}.

In charge of identifying, selecting, compiling and distributing every bit of facts and experience from available sources, all over the world, following Large-Scale-Sudden-Disaster [LSSD] triggered by major earthquakes.

I would appreciate any kind of assistance.

Sincerely,

Avi Shapira

Chair of the Steering committee  
For Earthquake Preparedness
