**Annual Scientific
Meeting 2014**
3-5th September 2014
Windermere

Psychobiology ASM 2014, Low Wood Hotel

The **Psychobiology Section Annual Scientific Meeting** is open to all researchers and scientists interested in psychobiology. It provides a forum for networking, showcasing research findings and keeping up to date with the latest developments in psychobiology. The sponsored guest lectures are always very popular. Students are especially welcome-please see details of our special student rates and activities. This meeting is deliberately held in a relaxed and comfortable atmosphere away from the bustle of the everyday workplace. We look forward to welcoming old friends and making new acquaintances at the 2014 Annual Scientific Meeting.

Psychobiology - The science is as good as the view

Guest Lecturers (in alphabetical order)

Prof. Colin Blakemore (University of London)

Colin Blakemore is Professor of Neuroscience and Philosophy at the University of London, and Emeritus Professor of Neuroscience at Oxford; a frequent broadcaster on radio and television, Colin has published a number of books about science for a general readership, and he writes for the national and international media.

Assoc. Prof. Jos Bosch (University of Amsterdam)

Jos Bosch is Associate Professor at University of Amsterdam and is expert on how microbial exposures (e.g. viral infections) can have persistent/permanent effects on mood, stress and aging.

Guest lecturers are sponsored by *Linton Instrumentation*:

Undergraduate project prize

Open to all UK final year students, the undergraduate project prize sponsored by *Salimetrics* consists of an expenses-paid invitation to attend the full meeting and present your project. This would look fantastic on your CV! The deadline for submissions is also Friday 11th July. Further details including how to apply can be found on our website <http://psybio.bps.org.uk>.

Deadline for Submissions and Registration

The Deadline for the receipt of abstracts for oral presentations and posters will be Friday 11th July 2014. This conference is being financially supported by the Society's Psychobiology Section for the benefit of their members. These fees include B&B, lunch, dinner, and other refreshments for the duration of the Annual Scientific Meeting, as well as registration for the event itself.

- Psychobiology Section Member £354.17+VAT **£425.00**
- BPS Member £375.00+VAT **£450.00**
- Non Member of the BPS £400.00+VAT **£480.00**
- Concession £250.00+VAT **£300.00**

Concessionary rates apply to student members of the Society, to retired members, graduate members registered under Rule 15(ii) (Graduate Member and a postgraduate student in the UK not subject to Income Tax), and Members who are registered under Rule 22 (reduction in membership fees for people who are finding it difficult to pay the full amount, e.g. through unemployment or temporary hardship).

Submission and registration is online at: www.kc-jones.co.uk/psychobiology

Sponsored places for Postgraduate Students

The BPS Psychobiology Section is funding two free places at our Annual Scientific Meeting (ASM) for registered postgraduate students whose abstracts are accepted for inclusion in the conference programme. Postgraduates wishing to be awarded one of these places should submit a summary (maximum 1,000 words) concerning the work from which their submission arises in addition to an abstract. Please submit the summary to Dr Richard Stephens at r.stephens@keele.ac.uk. These awards cover the registration fee and accommodation at the Low Wood.

Special Event for Students

This package allows student attendance on the afternoon of Thursday 4th September and morning of Friday 5th September including student workshop, poster presentation, keynote speaker, scientific talks and "meet the experts lunch" on Friday 5th. This package does not include accommodation

- Student Thursday/Friday Attendance £42.00+VAT **£50.40**

The Venue

Low Wood Hotel, overlooking Lake Windermere has fantastic conference and dining facilities, well-equipped en-suite rooms, a health spa and water-sport facilities. It is also only a short distance from the Langdale pikes for beautiful walks and breath-taking views.
