

# QUT research scholarships:

**You help find real solutions.  
We'll help pay the bills.**

Paying the bills is small stuff compared to making big research breakthroughs. But the financial freedom to dedicate yourself to your goals is invaluable. QUT researchers are motivated by some of the biggest challenges and opportunities facing the world today. If you're an outstanding graduate and aspiring researcher who is passionate about solving real world problems and finding real world solutions, we strongly encourage you to be part of our research team.

The closing date for scholarship applications is 30 September 2014.
