For more information or questions
please contact Dr. Justin Jagosh at cares@liverpool.ac.uk

- EXPLORE WHETHER REALIST METHODOLOGY IS A RIGHT FIT FOR YOUR RESEARCH;
- PRESENT YOUR WORK-IN-PROGRESS (REALIST EVALUATION AND/OR SYNTHESIS);
- RECEIVE FEEDBACK FROM FACILITATORS AND CO-PARTICIPANTS;
- GAIN EXPOSURE TO A DIVERSITY OF PROJECTS FOR KNOWELDGE SHARING;
- USE QUIET SPACE FOR DATA IMMERSION AND WRITING;
- NETWORK AND COLLABORATE;
- ENHANCE YOUR PRODUCTIVITY AND ADVANCE YOUR RESEARCH!

Dr. Justin Jagosh directs the Centre for Advancement in Realist Evaluation and Synthesis at the University of Liverpool. He is a co-investigator on the RAMESES II project to develop quality guidelines and reporting standards for Realist Evaluation. He facilitates introductory and intermediate-level workshops on realist methodology and has provided guidance on over 35 realist projects since 2013.

Dr. Sonia Dalkin is a Lecturer in Public Health at Northumbria University with interests in complex interventions and realist methodology. She has worked on both realist evaluations and syntheses in healthcare, specifically in palliative care and Patient Reported Outcome Measures (PROMs).

Realist Experts from the CARES Advisory Board and RAMESES II project may be in attendance.
