

Senior Product Design and CAD Instructor (Advanced)

Company: ISD RUBIKA INDIA – International School of Design

Location: Pune INDIA (Maharashtra)

Field: Industrial Design field

Position: Full-time Position

Job Description

ISD RUBIKA - Institut Supérieur de Design (hosted at www.dskisd.com) has an opening for 1 full-time position for a Senior Product Design Instructor, starting on August 2015. We are seeking an excellent product designer with a demonstrated records of accomplishments

The candidate must be a professional Product Designer with at least 5 years industry experience and able to teach in English.

Your mission is to support the head of the product design department with focus on both bachelor & master studies:

- > Guide student design on the projects (prospective research & real projects with local and international companies). So far, we have managed projects with Philips, Adidas, Oxyane Group, Teague, Danone, Dell, Whirlpool, Artefactgroup, JVCKenwood, Samsung, Puma, Tupperware, Samsonite and more!
- > Prepare and deliver courses encompassing the product design process, from analysis, through creativity to definition and CAD model.
- > Guide students in their individual projects, in participating in design competition and awards, building their portfolio and finding internships.
- > Work actively with the head of product design studies and trainers to develop the school curriculum.
- > Participate in the student evaluations and juries.
- > Contribute to the school's communication activities through preparation and participation in various promotional events (conferences, shows, student fairs etc.)

Desired Skills and Experience

- > Candidates must have a clear understanding and working knowledge of Product design, Service Design & project management. Able to introduce new tools to our design processes.
- > While experience is a definite plus; a positive creative energy and capacity to engage people with great ideas is a must.
- > This is an opportunity to join a creatively driven team on a very exciting academic project.

Qualification requirements

- > Possess a minimum Bachelor's or Master's degree in a related field is required.

Experience requirements

- > Proven industry experience (5 years or more) in the product design and / or service design industries.
- > Evidence of projects from concept through to production with products and service in the market.
- > Experience having given lectures, classes, workshops as well as university-level teaching background
- > International experience is a plus.

Competence requirements

- > Strong understanding of the design process and methodologies related to analysis, creativity, and definition.
- > Proficient ideation and visualization techniques : Hand sketching and layout, as well as use of industry standard software and hardware such as Adobe Creative Suite etc.,
- > Knowledge and experience of creativity techniques (brainstorming / mapping / storyboarding) is a big plus.
- > Knowledge and experience of 3D CAD, workshop, prototyping, mock ups.
- > Specialist in SolidWorks you are willing to teach the software taking industrial design samples as exercise.
- > Good knowledge of the Microsoft Office.
- > Thorough and forward thinking understanding of the interaction design and service design industry, insights, new technologies, future market trends and scenarios.
- > Excellent communication skills in English. Either your English is fluent (all lectures are given in English)
- > A strong interest in translating your knowledge and experience to an eager, small, focused group of students.
- > Highly organized with a strong attention to detail is a must given the demands of an academic environment. Must have a team player attitude.
- > Able to teach technical drawing to ISO standards and conventions.
- > Demonstrate a proactive positive and professional attitude with the ability to work in a collaborative environment.
- > Good organizational, time management and interpersonal skills.

Your benefits

- > We offer an attractive package

How to apply

Qualified candidates should submit the following information to benjamin.delautre@dskisd.com

- a cover letter,
- curriculum vitae (PDF format),
