

2 PhD positions in the Department of Psychology, University of Graz, Austria

Two 36 months PhD positions are available in the Cognitive Psychology & Neuroscience Group (<http://webpsy.uni-graz.at/cognitive/>) at the Department of Psychology, University of Graz.

The positions are available immediately (as of 28 May 2015).

The positions are part of the project “Attention and Memory in Overt Visual Search: Investigating Online Processing of Targets and Distractors with Fixation-Related Potentials and Fixation Based Event-Related fMRI Analysis” (PIs C. Körner & A. Ischebeck) funded by the Austrian Science Fund (FWF).

The project uses combinations of eye tracking and EEG/ERP or fMRI to investigate the neural basis of target and distractor processing in visual search with eye movements.

The job requirements are research in the field of Experimental Psychology and Cognitive Neuroscience as well as publishing in peer-reviewed scientific journals and presenting results at international conferences supported by the PIs.

We seek applicants with a master’s degree in Cognitive Neuroscience, (Experimental) Psychology, or a related field. A solid knowledge in Experimental Psychology and Cognitive Neuroscience is desirable, as well as methodological knowledge in the field of either EEG, fMRI or eye tracking. Strong computer programming and statistical skills are advantageous.

Salary will be in accordance with FWF regulations (<http://www.fwf.ac.at/en/research-funding/personnel-costs/>; gross income € 2024.90 p.m.).

Please apply by sending a CV, a short description of your Master’s Thesis and relevant background, and contact details of a referee to Christof Körner (christof.koerner@uni-graz.at). Direct inquiries may also be sent to this address. Review of applications will continue until the positions are filled.
