Understanding the University

Institution, idea, possibilities

Ronald Barnett, University College London
Institute of Education

Series: Foundations and Futures of Education

This book constitutes the final volume in a trilogy, the first two books having been ***Being a University*** (2010) and ***Imagining the University*** (2012), and will represent the trilogy's ultimate aims and endeavours. The three volumes together offer a unique attempt at a fairly systematic and exhaustive level to map out just what it might be seriously to understand the extraordinarily complex entity that is known across the world as 'the university'. Through examination of the conditions and possibilities underlying and affecting universities, Barnett offers an understanding of specific ideas of the university which can inform policies, strategies and practices in relation to the university.
