DALARNA
UNIVERSITY

NUTRITION AND NURTURE IN INFANCY AND CHILDHOOD:
Bio-Cultural Perspectives

Conference Convenor:

RENÉE FLACKING

Associate Professor in Nursing, Lead of the centre Reproductive, Infant and Child Health (RICH), School of Education, Health and Social Studies, Dalarna University, Sweden.

This will be the 7th conference on, '**Nutrition and Nurture in Infancy and Childhood: Bio-Cultural Perspectives**'. The conference was initiated in 2007 by *Professor Fiona Dykes*, head of the Maternal and Infant Nutrition and Nurture Unit (MAINN), University of Central Lancashire. It has been held every other year in the UK by MAINN and in 2014 the conference was held in Australia and in 2016 it will be in Sweden.

The conference links closely with the research network Separation and Closeness Experiences in the Neonatal Environment (SCENE) headed by *Associate Professor Anna Axelin*.

A SCENE Symposium day will be held on the 26th of August.

THE CONFERENCE AIMS TO:

- Explore the nature of relationships within families in connection with various types of nutritive and nurturing behaviour in infancy and childhood.
- Enhance understanding of the complex interactions between socio-cultural, psychological and biological factors in the nurture of infant and child.
- Illuminate socio-cultural, political and economic influences upon infant and child feeding practices.
- Increase understandings of breastfeeding as a bio-psychosocial activity.
- Focus on key initiatives that may impact upon practices related to nurturing the pre-term infant and the family
