

UNIVERSITY OF SASKATCHEWAN

Realist Methods and Realist Synthesis Training Workshops with Dr. Gill Westhorp

June 13 - 17, 2016

Please join us for an immersive five-day workshop that will guide participants through advanced skills in realist methodologies led by Dr. Gill Westhorp, an internationally-recognised specialist and trainer in realist methodologies (<http://www.cdu.edu.au/northern-institute/our-adjuncts/gillian-westhorp>). Dr. Westhorp runs a consultancy business specialising in realist evaluation and realist synthesis based in Adelaide, Australia. She is also an Adjunct Associate Professor at Charles Darwin University, Darwin, and an Associate at RMIT University in Melbourne. Each day of the workshop will have a different focus and will include:

- provision of advanced skills lectures / workshops;
- time for researchers or research teams to work on or develop their own projects;
- sessions in which researchers present their work in progress, receive feedback and discuss issues and strategies in realist design and methodologies.

Register early as space is limited.

University of Saskatchewan Registrants - \$500

Students - \$250

External Registrants - \$1,000

Email YXE.realistworkshop@usask.ca for registration information.
