

Maths Support through Embedded Classes

London South Bank University on Wednesday 16 November 2016

As a part of the Centre for Research Informed Teaching, Skills for Learning is delighted to host a sigma network free event – ‘Maths Support through Embedded Classes’ at London South Bank University on Wednesday 16 November 2016 starting at 12:30pm at Keyworth Centre, SE1 6NG.

If you are involved in the provision of mathematics and/or statistics support in Higher Education, this event will give you the opportunity to share your experience with colleagues from other HE institutions. The event will mainly emphasise support delivered through embedded classes. The aim is to share best practices, to enable participants to network and to develop “action plans” for the provision of maths support in your institution, possibly through an embedded approach.

12:30	Lunch and Welcome – Official welcome and opening of the event
13:00	Opening talk - Maths Support experiences at LSBU – by Professor Jon Warwick Professor of Educational Development in the Mathematical Sciences, LSBU
13:30	LSBU Experience in embedded classes Dr Lesley Roberts, Head of Skills for Learning, LSBU
14:00	Show and Tell: Different formats of maths and statistics support Each participant will have about 10 minutes to talk about their experience in their institution. We will focus on: The variety of forms of support and materials including embedded delivery How to tackle issues arising from embedding classes Collaboration with departments, students union and other support services Key performance indicators in evaluation Use of quantitative data and qualitative feedback
15:30	Tea and Coffee break
15:45	Group Activity - Discussion about Maths and Statistics support experience and challenges. Taking advantage of the earlier show and tell session, locate a group of participants for follow up and to exchange knowledge and experiences with. Set an action plan for further support provision
16:15	Activity Summary - What would you include in your action plan?
16:30	Closing Summary - David Bowers, Chair of the Sigma Network

Participants will have the opportunity to visit the Skills for Learning office and Learning Resources Centre.
