International Open Workshop

SOCIO-ENVIRONMENTAL DYNAMICS OVER THE LAST 12.000 YEARS: THE CREATION OF LANDSCAPES V

Kiel University
March 20–24, 2017

International Open Workshop **SOCIO-ENVIRONMENTAL DYNAMICS OVER THE LAST 12.000 YEARS: THE CREATION OF LANDSCAPES V** Kiel University, March 20–24, 2017

PRELIMINARY PROGRAMME

Monday, March 20
Afternoon: Keynote lectures
Evening: Icebreaker

Tuesday, March 21
Sessions

Wednesday, March 22
Sessions
Evening: Dinner

Thursday, March 23
Sessions
Concluding plenary meeting

Friday, March 24
Excursion

SESSION 1 How's life? Living conditions in Europe in the 2nd and 1st millennia BC

SESSION 2 Structure, network and space: Neolithic and Chalcolithic settlements and their social meaning

SESSION 3 'Tonight will be a memory too' – Memory and landscapes

SESSION 4 Lost in the lowlands – complementing the early late glacial puzzle

SESSION 5 Thinking inside the vessel: Ceramic development in prehistory through the interpretation of vessel use and function

SESSION 6 Exploring inter-regional interactions in the first millennium BC in Europe

SESSION 7 Quantitative approaches as a basis for simulation of prehistoric economy and environment

SESSION 8 Spatial analysis for an understanding of ancient human-landscape developments

SESSION 9 Agent based modelling of human-environmental interactions in archaeology: Putting models into practices

SESSION 10 Understanding inequality: New perspectives

SESSION 11 From pre-urban structures to cities: Urban space as an action context

SESSION 12 Deserted places as objects of historical science – Approaches and issues

SESSION 13 Interrelationships of climate, environment and socio-cultural changes through the Mid- to Late Holocene in the Mediterranean area

SESSION 14 Extrapolating from the provincial: Linking ancient societies, technologies, and landscape use in Eurasia

SESSION 15 Riverbanks and seashores: The Baltic Sea basin and adjacent areas in the Early and Mid-Holocene

SESSION 16 Archaeology and environmental history in lake catchment areas

SESSION 17 Comparative studies in stone and Bronze Age demography

SESSION 18 Lakescapes and seascapes of Neolithic and Bronze Age societies

SESSION 19 Archaeological heritage management – the practical side

SESSIONS
