

Job offer

Position	Project manager in crystallography
Start of contract	July 1 st 2017
Type of contract	Permanent contract
Employer	<p>NovAliX is a French contract research organization of 120+ employees providing expert driven innovative outsourcing and insourcing research services for drug discovery. NovAliX offers to the pharmaceutical industry a complete range of services spanning Biophysics, structural Biology, Chemistry & Drug Discovery.</p> <p>The position is based in Saclay, Essonne (South of Paris-France).</p>
Job description	<p>You will join our 5-membered structural biology insourced team located on the Synchrotron SOLEIL to manage projects for our client in the field of structural biology. Your work will consist in:</p> <ul style="list-style-type: none"> - Conducting crystallographic projects from bibliographic work to structure determination, as well as project follow-up, clients reporting, drafting procedures and/or reports. - Managing and supervising a team of research associates. <p>You will be in charge of protein production and purification from different expression systems, X-ray diffraction data collection & processing, structure determination of proteins of interest and of protein-ligand complexes.</p>
Profile	<p>You should have a PhD in crystallography with ca. 4-6 years of experience in modern Crystallography techniques (preferentially experienced in the life science industry) during which you have deepened and widened your practical and theoretical knowledge in the field of construct design, protein biochemistry and crystallography. A good knowledge of software packages employed in protein crystallography is a must. Additional experience in molecular biology and/or insect cells culture and characterization of protein/ligand complexes would be an asset.</p> <p>We are seeking a person who speaks fluently English and French, who is passionate about structural biology and who has a keen sense of responsibility as well as being a committed team player. The candidate will have a rigorous and organized attitude to work with excellent supervisory and reporting skills.</p>
