

MULTILINGUAL LEARNERS IN CONTEXT

EAL, community, and international school settings

This one-day symposium brings together academics and practitioners to engage in dialogue about the experiences of multilingual learners and their teachers in a variety of contexts (mainstream schools, community or supplementary schools, and international schools) with a view to examining the commonalities and particularities of these contexts.

We anticipate that the symposium will facilitate knowledge exchange that will, in turn, enhance understanding of the needs of these learners and lead to positive actions in supporting their learning.
