The Feminization of Sports Fandom

A Sociological Study

Stacey Pope, Durham University, UK

Series: Routledge Research in Sport, Culture and Society

This ground-breaking study is the first to focus on the phenomenon of the feminization of sports fandom. Including original research on football and rugby union in the UK, it looks at the increasing opportunities for women to become sports fans in contemporary society and critically examines the way this form of leisure is valued by women. Drawing upon feminist thinking and intersectionality, it shows how women from different social classes and age groups consume the spectacle of sport.
