By participating in the TdLab Winter School, you will learn how to:

- Facilitate and manage a diverse group of stakeholders to ask the right questions and frame the relevant problem;
- Critically analyze and reflect on your own research and its societal impact;
- Apply theories and methods needed for knowledge exchange between science and practice while working on a real-world issue;

The TdLab Winter School is aimed at PhD students and postdocs from environmental and natural sciences, engineering, and social sciences working on topics relevant for sustainability and sustainable development.

To apply, go to [www.tdlab.usys.ethz.ch/education/winter-school](http://www.tdlab.usys.ethz.ch/education/winter-school) and follow the link to the online application form.

For questions, please contact  
Dr. Michael Stauffacher | [michael.stauffacher@env.ethz.ch](mailto:michael.stauffacher@env.ethz.ch);  
or Dr. BinBin Pearce | [bin.pearce@usys.ethz.ch](mailto:bin.pearce@usys.ethz.ch)

Applications will be accepted until midnight CET, Friday 20 of October 2017.
