Reardon Smith Theatre

National Museum Cardiff

Free admission, advanced booking required

Tea & Coffee provided

Image: Post-Medieval clog from Lancashire (LANCUM-76D192). This child's clog was discovered hidden within the fabric of a wall and most likely relates to a Lancashire tradition of hiding the shoes to prevent the child being swapped for a fairy child.

One database; thousands of stories.

Objects have the potential to excite and inspire us. They are a direct link to our past. Over 1.2 million objects have been recorded on the Portable Antiquities Scheme database. Within these objects are hundreds, possibly thousands, of stories from our past.

The PAS Explorers Project Conference 2017 will celebrate and share some of these stories, from tales of discovery to the ways in which PAS data is being used to unlock our shared history.

Stories will be told through PAS volunteers.
