

# The Sociological Review

19 - 21 June 2018

BALTIC Centre for  
Contemporary Art,  
Gateshead

This conference builds on The Sociological Review's rich history and future ambitions to bring the conversations at the edges into the centre, to unsettle comfortable and convenient understandings of the social world, and to recognise that the potential of sociological thought and understanding exists through debates that extend beyond disciplines and the university.

**Call for participation  
and to find out more**
