

Post-Doctoral Research Fellow

Swiss Federal Institute of Technology (ETH Lausanne)
Defitech Chair of Clinical Neuroengineering
BrainMind Institute and Center for Neuroprosthetics

The Hummel Laboratory (<https://hummel-lab.epfl.ch>) invites applications for up to three Post-Doctoral Research Scientist position(s) in systems neuroscience in the field of stroke recovery. The selected candidate(s) will contribute to multi-year, multi-institution projects in the framework of stroke recovery, structural and functional imaging and neuro-technologies.

The selected candidate(s) must have the ability to conduct independent research, publish academic manuscripts and should have expertise in either structural and functional MRI imaging, EEG imaging, TMS-EEG, brain stimulation or in computational skills.

Positions will be open from beginning of 2018.

Applications must be submitted electronically to emannelle.polcari@epfl.ch
