Resource Allocation in Personalised Medicine: Evaluation, Translation & Ethics

19th June 2018 • Tsuzuki Lecture Theatre • St Anne's College • Oxford

We invite you to join us for this conference, which will consider three broad themes:

The Clinical Context: How should we understand current and future developments in clinical commissioning structures, organisation and delivery?

The Health Economic Context: What are the current developments and trends in assessing economic evidence relating to personalised medicine?

The International Ethics and Policy Context: What is the international 'direction of travel' in thinking about resource allocation related to genomic medicine?

Confirmed speakers include:

Inês Amado (Deputy Director, Plan France Médecine Génomique 2025)

Nick Fahy (Senior Researcher, Nuffield Department of Primary Care Health Sciences, University of Oxford)

Dr Tom Fowler (Deputy Chief Scientist, Director of Public Health, Genomics England)

Ellen Graham (Deputy Director – Genomics, NHS England)

Catherine Lejeune (Medicine Genomique 2025, Université de Bourgogne)

Professor Christian Munthe (Professor of Practical Philosophy, University of Gothenburg)

Professor Katherine Payne (Professor of Health Economics, University of Manchester)

Dr Dean Regier (School of Population & Public Health, University of British Columbia)

Dr Jayne Spink (Chief Executive, Genetic Alliance UK)
