"The business internship at Shearman & Sterling was a great insight into the inner workings of a City firm. We were set relevant and interesting work from day one and given plenty of opportunity to fully integrate ourselves both with the teams in which we were working and the wider organisation.

Although we were all kept busy with project planning and our day-to-day tasks, we were offered plenty of training to develop our skills and enjoyed various social activities which Shearman kindly organised for us.

In short, the business internship was a great experience which tested my skills, enhanced my commercial insight, and provided me a platform from which I was able to land a permanent position at the firm."

Ashley Whitefoot, Business Intern 2015
