

Held in cooperation with the INFORMS Simulation Society

This biennial simulation workshop covers application and theoretical developments across all simulation methods.

**19 – 21 March 2018** Ettington Chase Hotel, Stratford

## What you can look forward to:

- The OR Society's biennial simulation workshop, #SW18, always boasts an excellent mix of delegates from the fields of simulation practice and research. We have updated and refreshed the conference this year keeping the best of the original format and adding some exciting new elements.
  - An extra half day of simulation tutorials at no extra cost.
  - Not one but two panel sessions.
  - High quality talks – guaranteed!
  - Practitioner and researcher poster competition.
  - Simulation special interest group meeting.
- Get feedback on your work, either during the formal conference sessions, at the conference dinner or the coffee breaks between sessions.

**The Simulation Workshop has a proud track record of attracting top names in computer simulation.**

Keynote Speakers at SW18 will be:

- Professor John Fowler, Motorola Professor of International Business, Arizona State University
- Professor Russell Cheng, Emeritus Professor within Mathematical Sciences at the University of Southampton and 2016 winner of the INFORMS Simulation Lifetime Professional Achievement Award.

Look out for the #SW18 hashtag on social media.

We have talks covering the following areas: Applied Simulation Case Studies, Modelling Methodology, Conceptual Modelling, Advances in Output Analysis and many more!
