

Collections Seminar Series

Seminar, Tuesday 4 September, 14.30–15.30, Flett Events Theatre

Digitising Darwin's Discoveries

The Museum has produced new 3D models by scanning some of Darwin's Fossil Mammals. These specimens have scientific, historical and cultural significance not just for the museum and its audience, but for other institutions. Join Dr Adrian Lister, Dr Pip Brewer and Jennifer Pullar as they discuss the importance of these specimens to Darwin and the potential new technology has to reach new audiences.

Who should come?

This seminar is open to all. Please email a.salvador@nhm.ac.uk for more information and/or to book a place.

Natural History Museum staff do not need to book.

The following staff will find the seminar most useful:

Science Group: All senior department managers and collection management staff.

Public Engagement Group:

Any staff who work with and use collections or manage staff who work with collections.
