

Fully funded four-year MSc & PhD studentships

WARWICK

## Mathematics for Real-World Systems Centre for Doctoral Training

MathSys is training the next generation of mathematical scientists to tackle real-world problems of highly connected systems. Our MSc provides state-of-the-art training in mathematics, statistics, programming, machine-learning as well as multi-scale and hybrid modelling. Doctoral research is undertaken together with our external partners in areas spanning biomedical research, population health, socio-technical systems and industry.

Applicants should be strongly motivated to use mathematics to solve real-world problems and anticipate a first-class degree in an analytical subject.

For more details and to register for one of our open days visit [warwick.ac.uk/mathsys](http://warwick.ac.uk/mathsys)  
Next open day is 13<sup>th</sup> March 2019
