Ragged Trousered NGOs

Development Work under Neoliberalism

Charles Buxton

Ragged Trousered NGOs is a compelling insider account of the NGO sector and wider civil society over the past 40 years, examining how and why people take collective action and engage in social development projects. This book's insider perspective on progressive forms of organisational management will be of considerable interest to civil society and NGO development workers, as well as to researchers and students in the fields of international development, politics, sociology, and regional studies.
