

Cultural Literacy Everywhere

Hybrid Conference

15–17 June 2023

DIGITAL CREATIVITY

Cultural Literacy Everywhere (see [My CMS – Cultural Literacy Everywhere \(cleurope.eu\)](https://cleurope.eu)) is delighted to announce its 2023 Conference on the topic of *Digital Creativity*. It will be held on 15–17 June 2023 as a hybrid event co-hosted by the University of Oslo. The programme includes 12 parallel breakout sessions (10-minute presentations followed by group & plenary discussion); six parallel interactive workshops;; the CLE AGM; and two keynote events, one lecture and one performance.

Our current cultural landscape is characterized by an increasing confluence of analog, digital, and natural environments. Since the 1980s, we have witnessed a steady expansion of the ‘digital humanities wave’ – from the digitization of historical or cultural material to digital analysis and visualization and currently how humanities discourses influence applications and codes. In this environment of the Digital Anthropocene, with its transformative technological and critical practices, we can detect emerging creative trends haunted by a sense of threat and challenge. This mix of curiosity for the new and fear of loss and nostalgia appear in the academic domains of the humanities and social sciences – now often in close collaboration rather than a perpetual collision with areas such as genetics and bioinformatics. In addition, cross-disciplinary activities of knowledge production are creative endeavours within the digital landscape and big data environment, where they respond to a novel need to explore and assess not only the ontological implications of the digital age but also our roles in making it.

LOCATION: The conference will take place at the [Voksenåsen conference hotel](#) in the Oslo Forest; subsidised charges will be announced at a later date. Please note: Norway is not a member of the EU.
