What is the network?

The International Child Welfare Inequalities Network (CWIN) was established in 2022. Its members include established and early career researchers, educators, policy makers and practitioners from over 15 countries and various disciplines who share a common interest in understanding how social inequalities affect the lives of children, young people and their families, and the role that child welfare services play in mitigating or reproducing such inequalities.

The co-convenors of the network are **Professors Brid Featherstone, University of Huddersfield** and **Anna Gupta, Royal Holloway, University of London**.
