

COLOUR GROUP

One-day January vision meeting

10.00-17.40, Wednesday, 12th January 2011

Lecture Theatre, UCL Institute of Ophthalmology

11-43 Bath Street, London, EC1V 9EL

10.00	COFFEE & REGISTRATION
10.30	The roles of colour and luminance in object classification. Jasna Martinovic, <i>University of Aberdeen</i>
11.00	Palmer Lecture 2011 Modelling neural mechanisms for colour discrimination. Arne Valberg, <i>Institute of Physics, Norwegian University of Science and Technology, Trondheim</i>
12.00	Multiple perceptual references for colour"? Rob Lee, <i>University of Durham</i>
12.30	LUNCH
13.30	Cambridge Research Systems sponsored lecture 2011 When pink is the new yellow: a modern approach to colour vision deficiencies. Rigmor C. Baraas, <i>Buskerud University College, Kongsberg</i>
14.30	The complexities of S-cone vision. Caterina Ripamonti, <i>UCL Institute of Ophthalmology, London</i>
15.00	GRANVILLE TEA
15.30	Tracking non linearities in colour discrimination using comb-filtered spectra. David Alleysson, <i>Universite Pierre-Mendes France</i>
16:00	Psychophysical estimates of the relative numbers of L and M cones: comparison of temporal and spatial measures. Marina Danilova, <i>I.P.Pavlov Institute of Physiology, Russian Academy of Science</i>
16:30	Review lecture In search of colour constancy. Alexander Logvinenko, <i>Glasgow Caledonian University</i>
17:30	Meeting ends

REGISTRATION. The fee including lunch is £20 for Colour Group members and £25 for non-members. The fee without lunch is £10 for members and £15 for non-members. Cheques made to **The Colour Group (GB)**. Send the registration form to **Andrew Stockman, UCL Institute of Ophthalmology, 11-43 Bath Street, London EC1V 9EL**. An electronic version of the form can be found on: <http://www.colour.org.uk>. For further information contact Andrew Stockman. e-mail: a.stockman@ucl.ac.uk Tel: +44 (0) 20 7608 6914. Please note that space is limited.
